

December 15, 2020

Hooked on Driving (HOD) is committed to always running events with SAFETY as our number one goal. HOD communicates reasonable expectations of our participants and provides active monitoring to ensure that all are being held accountable to those expectations.

Considering the COVID-19 situation, HOD has developed an event plan that substantially mitigates the risk associated with the virus. However, NO plan is perfect. We will do everything we can to manage a safe event but cannot guarantee 100% safety —as there is some risk in simply driving to the gas station.

Here is a list of standards and practices that HOD has implemented at events nationally for the foreseeable future. As venues are all different, there will be minor modifications to each event based on logistics and the physical layout of each track and paddock. **COVID-19 rules at each venue may override these HOD standards and practices.**

1. Anyone who has registered for an HOD event who is not feeling well, has a cough or fever the day before or the day of the event, is required to notify HOD and disclose this fact and stay home with a full refund provided.
2. Only paid participants and immediate family, plus essential support staff are allowed at events. No spectators will be admitted. Some venues may only permit drivers to bring a single family member.
3. Some venues may take temperatures with touchless thermometers upon entry.
4. Some venues may require an additional waiver for COVID-19.
5. HOD's eSignature waiver and tech form process eliminates a number of touch points and makes a zero contact check in process easy.
6. Participants are required to bring a face mask that fully covers their mouth and nose, and wear it interfacing with anyone from the track staff, HOD staff or other participants. **You must carry your mask with you at all times. We strongly recommend that it be worn anytime there is interaction with other participants.** Please check with us if your personal mask is lost or damaged. Note that some venues may require participants to wear a mask at all times when out of their car.
7. Social distancing will be enforced at all times during the event. This includes waiting in a line for check-in, meal service, resting between sessions, and meetings — whether standing or sitting. All will be done with 6' distancing between participants.
8. Paddock parking will be a bit more spread out, as we will endeavor to use every other parking spot —allowing a blank space between each car. This will assure that 6' spacing will be in force as participants ingress and egress their cars.

9. In almost all cases meetings will be held outdoors with attendees socially distancing. Zoom meetings may be utilized by some HOD Regions in advance of events.
10. We ask all participants to bring their own hydration.
11. Meals will be provided at events. They will be served by a caterer using all sanitary standards and the meal will be boxed or sealed.
12. HOD's reputation as one of the best coaching/learning organizations will be continued without the use of in-car coaches. While there may be one-on-one coaches assigned, the coach will work out of the car with the student while social distancing, providing lead-and-follow direction on track, or using other means of instruction. These could include wireless communication, external observation, video, followed by socially distanced debriefs.
13. Passengers may be allowed if they are members of the same household or have verified daily contact. This rule is venue specific with some venues prohibiting any passengers.
14. HOD will collaborate with each venue to assure that cleanliness is maintained throughout the public access areas.
15. HOD will collaborate with track emergency and flag staff to assure that all customer contact follows appropriate protocols, and that track staff is properly equipped with PPE.

While this list may seem somewhat daunting, please consider that there is nothing here that prevents you, the driver, from having an amazing time on track with HOD, and from seeing good friends and meeting new ones. This list of rules allows us to continue to enjoy the sport we love so much, while protecting one another so we can do it again soon!

Thanks! HOD Drivers — Please stay safe.....and we will See YOU at the Track Soon!!!
